

OUR COVID-19 RESPONSE PLAN

As a moving business, we are in the Road Transport and Freight industry (an essential service) and operate as usual and will continue to do so until advised otherwise by the government. As a response to COVID-19, we have a plan of action to ensure our staff and customers are safe. We are currently taking the following steps:

1. We regularly check the health and wellbeing of our staff. Our teams have not had any symptoms of the Novel Coronavirus and have not travelled on overseas or domestic flights in the past month. Any team member who has symptoms of or may be exposed to COVID-19 will be removed from the roster until they are tested negative for the virus.
2. Each truck is stocked with hand sanitiser and disinfectant. The removalists use them before and after each move.

In order to assist us in keeping yourselves, our teams and other customers safe, please do the following:

1

Advise us immediately if you are unwell

If you or any members of your household have any of the following symptoms: a fever, a cough, a sore throat, shortness of breath or aches and pains, please let us know as soon as possible.

2

Advise us if you have been exposed

If you or any members of your household have travelled in the past 14 days or have had contact with someone who may have been exposed to COVID-19, please let us know as soon as possible.

3

Disinfect all surfaces

Please disinfect all surfaces of furniture and white goods before the men arrive for your move.

4

Keep a distance

Please keep at least a 1.5m distance from the men while they are working.

Thank you for your cooperation. We look forward to moving you soon!
